600 x 1200 mm | 600 x 600 mm

It all started with a belief, and a purpose - a belief that there's no such feat which cannot be achieved, and a purpose to deliver the world's best products and services. 6 decades later, we're one of the largest, and the only premium tile brand in India. And we're only getting started.

NITCO is the only company in the country to boast a state-of-the-art, fully-integrated, automated plant, with benchmark processing systems and the most advanced technology. We are also the only company with and automated sorting process. This ensures quality consistency with the least variations. Our plant houses the country's most advanced Lab, with skilled technicians, professionals and experts from across the globe, ensuring quality and standards par excellence.

But most importantly, our processes, systems and technology also offer one more extended feature-peace of mind. In an industry where minor defects and imperfections are a norm, we strive to offer quite the opposite. With NITCO you are assured minimum risk, and the best quality, at all times. A definitive proof of that comes in the goodwill we've created amidst the Architect and Dealer fraternity across the World.
